

Children's Speech and Language Therapy Service

To develop your child's sentences

Match and Stretch

your child's language

If your child says a word that is not clear then 'Match' what your child says by repeating it back

If your child says a word that is clear then 'Stretch' what your child says by saying the word, and then adding another word

Remember to match and stretch when.....
playing together, when looking at a book together,
when you are doing any daily activity, e.g. going
to the supermarket, having a snack or meal,
bathing your child.
